Senior Directory

Planning, design, layout, art work, paste up of pictures, and copy were done by the student Year Book Staff of Memorial Technical High School. All the copy was printed by the students of the Memorial Tech Print Shop.

Once every four years, athletes from every country represented in the United Nations meet in contests that test man's physical and mental stamina. These games were instituted to eliminate international war by enabling each to show its strength and durability through peaceful means rather than through death and destruction.

The best athletes from each country meet under the five interlocking rings of the Olympic banner to promote sportsmanship and the feeling of brotherhood among themselves and the powers they represent.

Through this type of competition, they hope to achieve the unity of mankind and the peaceful coexistence of all men.

The Graduation Class of 1961 dedicates the "Torch" as their banner to lasting peace and prosperity for the world and mankind.

ALEXANDER, DAVID

Seniors

As the graduating class of 1961 looks back on the three wonderful years they spent at Technical Memorial High School, they think of the many memories that they and their fellow classmates have shared.

The first year at Tech was a new outlook on school life for each student because it was their first year of senior high and all the faces were strange to them.

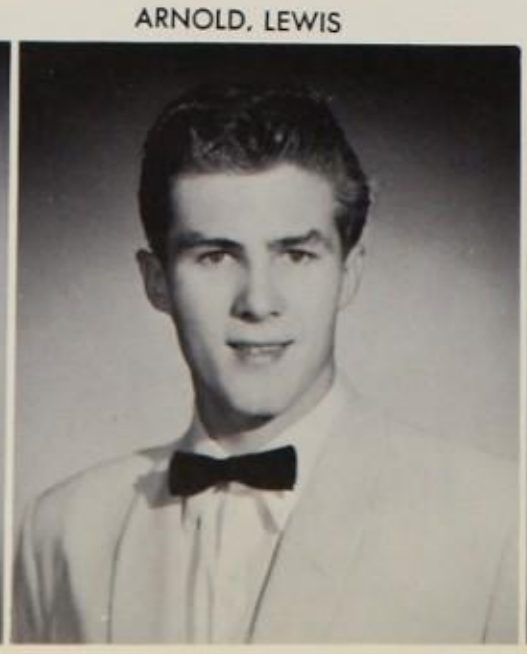
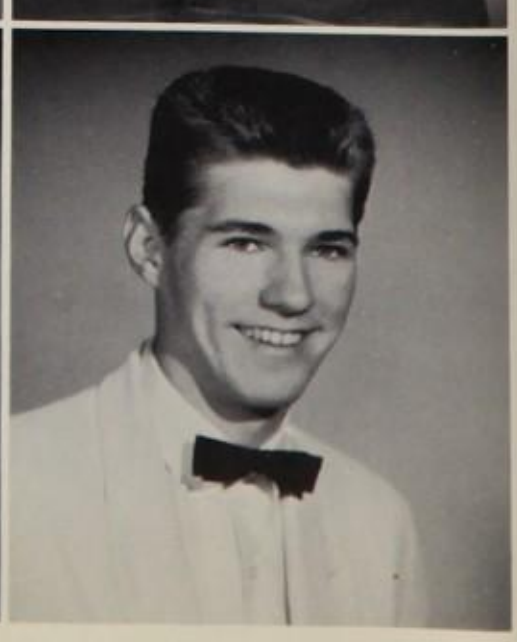
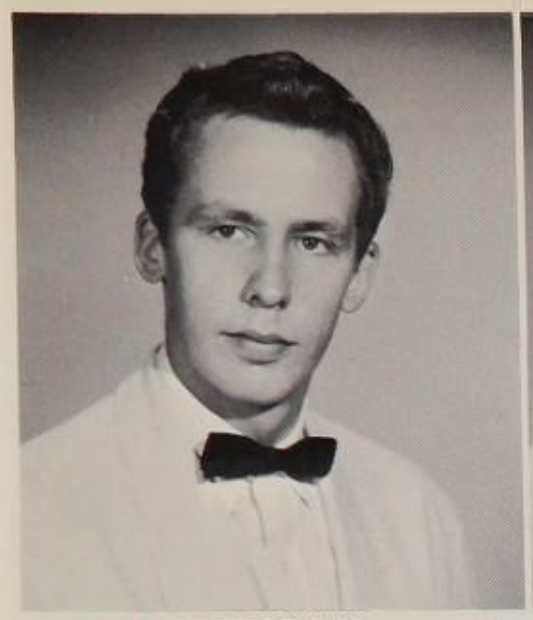
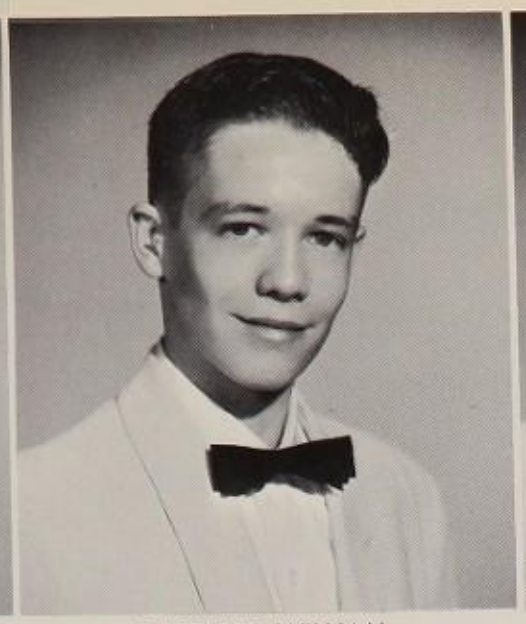
ARNOLD, LEWIS



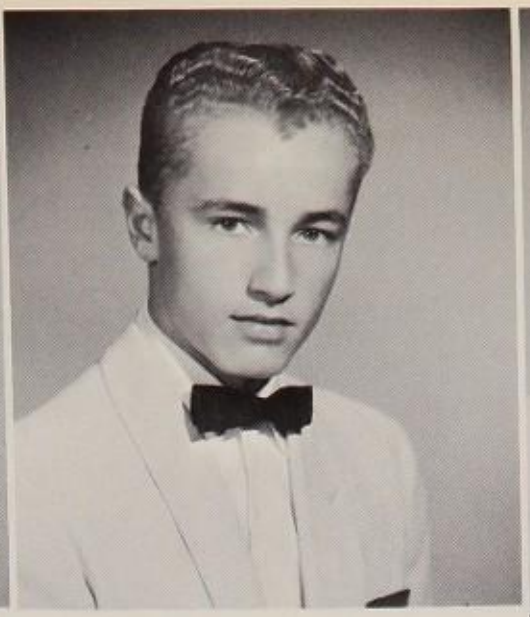




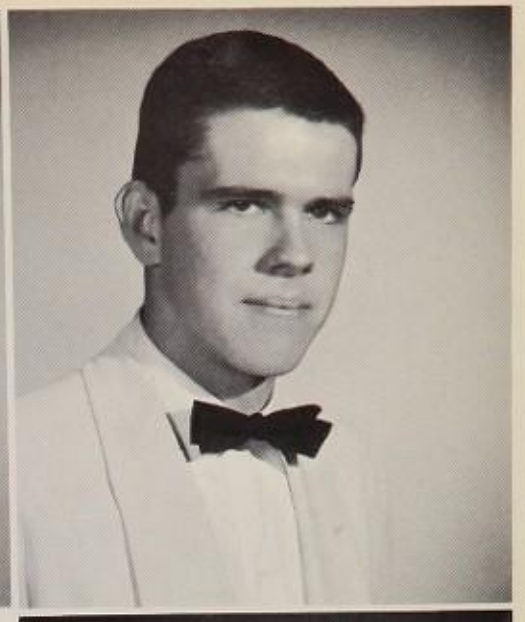
BARNETT, DENNIS



BARTLETT, WILLIAM



BASTOW, DONALD



1961

In their second year, though, things began to change for the better, they had made new friends, had new teachers, and the students were finally able to find their way around the halls, and into their right classes on time.

The third year seemed the hardest for the seniors to face because they knew that there was no turning back now, and that this was the final year of sharing joys with their classmates.

MR. VICTOR R. DONOVAN

As principal of our school for the past three years, Mr. Donovan has demonstrated great interest in the welfare of the student body. In times of need, he has always stood ready to help with his wisdom and experience. He has encouraged the student body to follow paths leading to scholarship and high intellectural achievement. We, the seniors, are grateful for his encouragement and guidance.

acquire

Mr. ALBERT H. HOOK

Although he has only been with us for two years, Mr. Hook has done much to promote school spirit and eagerness to learn. A cheery smile and a helping hand characterize his manner throughout the halls. His friendliness in Tech Memorial has done much to make everyday a little more pleasant.

DRAMATICS CLUB

The Dramatics Club, under the direction of Mr. Richard Flynn, has provided the whole student body with enjoyment through the plays they have presented to us this year. Such experience as this club gives is helpful to any student who feels he will ever be interested in acting, public speaking, directing, or anything connected with the theater.

NATIONAL HONOR SOCIETY

The four qualities that a student must possess to be inducted in the National Honor Society are scholarship, leadership, character, and service. Many students hope for a membership in this organization, but not everyone can be accepted

Not everyone realizes how important these four qualities are, not only in our school life , but in the many years that follow our graduation. A student who possesses these qualities now, while they are younger, will succeed all their lives.

M. Miller, W. Psillas, B. Crockett, S. Sedziak, J. Franceshello, T. Buto, L. Bowser, J. Yonko, C. Rhodes, B. Carey Row 2 : S. Rudler, M. Salzer, J. Harding, S. Brown, M. Syzmanowski, J. Macer, R.
